AND
LEANER**

REALIZE YOUR VISION!

Illumiti helps you optimize your operations by implementing SAP® software solutions faster, at a lower cost, and with less risk.

No two companies are alike. That's why our approach puts the focus on you and your unique business challenges. Working together, we find the solution that makes the most sense for your organization to optimize your operations, and enable access to the information you need to make informed business decisions. You'll see the difference in your bottom line.

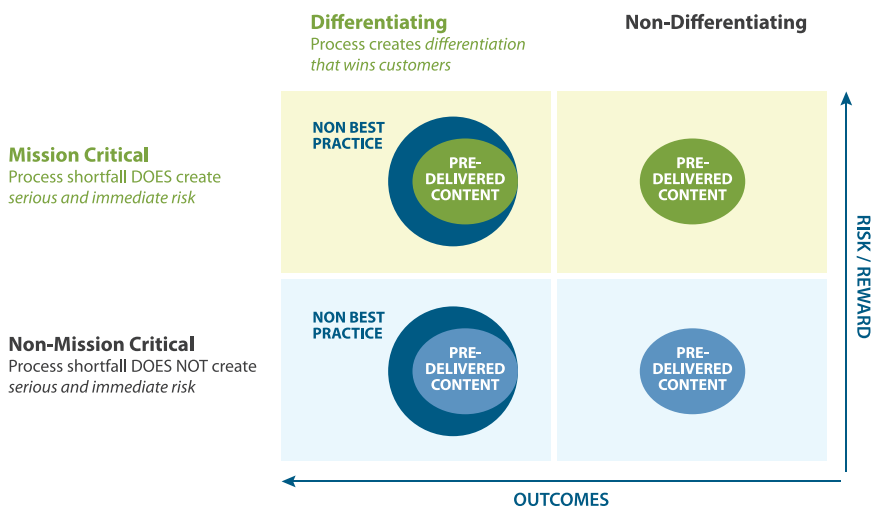

Illumiti brings the power of world-class SAP® software to small and mid-sized businesses through:

Lean, Business-Focused Approach to Implementation

SAP® implementations can be complex. That's why we use Geoffrey Moore's Core/Context principles to focus on the areas of greatest importance and impact to our clients. Not only does this focused process result in a faster, more efficient implementation and customization process, but it also delivers a better return on investment.

OUR APPROACH

Implementation Methodology

Based on Geoffrey Moore's Core/Context principles.

Illumiti is a Systems Integration and Management Consulting company. We enable customers to realize their vision by leveraging SAP technology, people, and leading business practices. Since its founding, Illumiti has developed a reputation for delivering successful customer projects faster, smarter and leaner.

“ Working with Illumiti, our clients learn how to leverage the power of SAP software to strengthen their business operations and build competitive advantage.

A Proven Team

Our solutions exceed our clients' expectations—and our proven team is a big reason why. With more than 300 senior consultants with an average of ten or more years of SAP® implementation experience, you can be confident in the support you receive from Illumiti.

Industry Expertise and IP

We speak your language. Our team has in-depth understanding of industry-specific solutions and insights, and leverages industry best practices, pre-built tools and templates, and proven solutions to help you get the most from your SAP® software. We have also built accelerator solutions for several industries, and have recently established the Illumiti Centre for Innovation & Enablement to drive new solutions in Business Intelligence, S/4HANA and mobility.

Track Record of Success

Our team serves more than 200 customers across a multitude of industry sectors and locations and have completed more than 100 SAP software implementations at small, mid-sized, and large enterprises. Whether it's a first time Enterprise Resource Planning (ERP) & Information Technology initiative, a merger & acquisition related project, a drive to propel a business to best-in-class performance, or a system roll-out to other business divisions or countries, Illumiti does it faster, at a lower cost, and with a higher level of confidence.

SAP® Software

Using SAP software solutions, we help you build robust business management, business intelligence (BI), information management, and performance management functionality. The result? Streamlined operations, improved visibility, and the power you need to drive your business forward.

Key solutions include:

- **SAP S/4HANA** delivers massive simplifications and innovations to drive instant value across industries and lines of business. Deployable in the cloud, on-premise or hybrid, SAP S/4HANA offers real choice and greater flexibility with a reduced total cost of ownership.
- **SAP Business ByDesign** is an on-demand, fully integrated business management solution. Implement the full solution or begin with one of our starter packages for an easy fixed monthly fee.
- **SAP Business One** is a small business solution that integrates all core business functions, including financials, sales, customer relationship management, inventory, and operations. Unlike other small business solutions on the market today, SAP Business One is a single application that eliminates the need for separate installations or complex integration of multiple modules.
- **SAP SuccessFactors** provides organizations with a full range of HCM solutions to help support, train, reward and motivate their people. As the leading cloud-based HCM Suite, SAP SuccessFactors helps more than 6,000+ customers, across more than 60 industries in over 177 countries.

Bring the power of SAP® software to your mid-sized business.
